## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-6, drawn to the use of at least one substance comprising arsenic or a compound having the same biological properties as arsenic in association with PML and/or an agent inducing the overexpression of PML, to promote PML targeting to nuclear bodies and/or its stabilization and an *in vitro* method of inducing the death of undesirable cells.

Group II, claim(s) 7-8, drawn to a pharmaceutical composition containing at least one caspase inhibitor and/or arsenic or a compound having the same biological properties as arsenic, and/or PML or an agent inducing the overexpression of PML.

Group III, claim(s) 9-11, drawn to the use of at least one substance, other than compounds of arsenic, to promote PML targeting to nuclear bodies and/or its stabilization.

2. The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Inventions I-III have been found by the examiner to have no special technical feature that defined a contribution over the prior art because Zhu, et al., (Proc Natl Acad Sci U S A 1997 Apr 15;94(8):3978-83) teach arsenic-induced PML targeting for the treatment of acute promyelocytic leukemia. Since the inventions do not contribute a special technical feature when viewed over the prior art, they do not have a single inventive concept and lack unity of invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 1642

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
